# **Audited Abridged Financial Results**

For the year ended 31 December 2022

### Unlock premium value

With the right partner, you can build a strong foundation by creating value through property.

Property Management, Investment and Development designed With You and For You

#### Chairman's Statement

With you, for you

#### Overview of Operating Environment

The global macroeconomic conditions remained largely uncertain due to multiple shocks. Inflationary pressures and supply chain disruptions had a spill-over effect on the local economy. As a result, the local US dollar inflation increased. Despite the forgoing, Zimbabwe's economic situation was relatively stable on the back of tight monetary measures adopted by the authorities. Sustaining macroeconomic stability will go a long way in stimulating the demand for supporting infrastructure including properties among others.

The Zimbabwe dollar depreciated by 516% against the US dollar to ZWL671 in December 2022 from ZWL109 last year. Annual inflation rose to 244% at year-end from 61% in December 2021. However, inflationary pressures started to recede during the last quarter of the year due to monetary policy interventions by the authorities to limit money supply growth and "speculative" foreign currency activities.

Management continued to closely monitor the business environment and adapted its strategies to protect the business from the exogenous shocks as demonstrated by the performance achieved during the year.

#### Property Market long-term impacts

The property market fundamentals were mixed during the year. The leasing market for commercial space was the most active segment, with buoyant activity in the retail and industrial sectors. However, the office segment was subdued because of the need by people to re-adjust their newly-formed working habits of "working from home" to "back to the office". The CBD office experienced the highest vacancy rates forcing most owners to re-model their properties to cater for the Small and Medium Enterprises (SMEs) sector. Further, the retail, industrial and residential sectors enjoyed relatively huge activity during the year. In contrast, commercial property transactions were low due to huge investment requirements. Limited commercial property developments seen during the period under review have largely been selffunded, and are being used as a hedge against currency and inflation risks as well as possible future rental increases.

The industry grappled with "twin evils" of rising defaults on lease obligations and construction cost inflation. Management continues to closely manage these risks given their potentially huge impact on the company's strategy.

#### Business performance overview

The Group's inflation adjusted Net Property Income after administration expenses was ZWL140.5 million (FY 2021: ZWL589.4 million) despite a 42% growth in inflation adjusted revenue to ZWL2.9 billion (FY 2021: ZWL2.0 billion). In historical terms, revenue grew by 342% from ZWL475.4 million in December 2021 to ZWL2.1 billion largely due to the repricing of rentals and relatively good occupancy that stood at 85.5%. Foreign and local currency rental mix was 70% to 30% at the end of the year. This has enabled the Company to preserve value from foreign currency and inflation risks while creating capacity to finance its on-going capital and growth expenditure programs from internal resources.

Collections decreased to 72% from 82% in the prior year particularly on the back of the country's contractionary policies.

The business strives to maintain buildings in lettable and safe conditions. Against this strategic imperative, a total of ZWL528 million was deployed towards maintenance of buildings. The Company will continue to commit resources towards enhancing the quality of its product offering.

#### **Property valuations**

An independent property valuation conducted by Knight Frank Zimbabwe as at 31 December 2022 valued the property portfolio at ZWL 109.3 billion (FY 2021: ZWL 22 billion), representing a growth of 397%.

#### Developments

The Group is at early construction stages of a new office block in Arundel Office Park. The contractor is already on site, and was working on pile foundations in the basement at the end of the year. The project is expected to be completed by December 2023.

Following the successful completion of the construction of Mbare retail warehouse, the premises were handed over to the tenant (Gain Cash and Carry) during the year. The tenant started operations in July 2022.

Various projects to provide university students accommodation are being pursued. At this stage, the most advanced one involves constructing a 430-bed facility in Chinhoyi, which started in October 2022. First Mutual Properties is a co-investor and project manager in the project with other pension funds. The project is expected to be completed in November

#### Sustainability

The year 2022 saw First Mutual Properties making significant progress on the sustainability journey through harnessing renewable energy and improving energy efficiency of its properties. Some of the notable green projects implemented during the year include the solar system installation at the head office, replacement of all traditional light bulbs with low energy consumption LED lights and erection of waste management centres. FMP will pursue more of such initiatives going forward as we strive to manage our business sustainably.

FMP was conferred the prestigious Overall Best Corporate Governance award at the Chartered Governance and Accountancy Institute in Zimbabwe Awards 2022. The Company also received the third overall prize on Best Board Practices and Best Shareholder Treatment. These accolades reaffirm the Company's efforts to improve corporate governance and sustainability practices.

#### Dividend

At a meeting held on 24 February 2023, your Board resolved that a final dividend of ZWL 175.4 million being 14.1821 ZWL cents per share and an additional USD150,000 (being 0.011818 United States cents per share) be declared from the profits of the Company for the fourth quarter ended 31 December 2022. This brings the cumulative dividend for the year ended 31 December 2022 to ZWL 477.8 million being 38.5786 ZWL cents per share and USD 400,000 being 0.03229 United States Cents per share.

The dividend will be payable on or about 26 April 2023 to all shareholders of the Company registered at close of business on 14 April 2023. The shares of the Company will be traded cum-dividend on the Zimbabwe Stock Exchange up to 11 April 2023 and ex-dividend as from 12 April 2023.

The Company remains focused on delivering on its strategy despite the environmental uncertainty caused by the global geopolitical tensions as well as a volatile and complex economic environment. This involves developing a sustainable and well-diversified business portfolio, delivering on new projects within budget, schedule and acceptable quality as well as creating value for all our stakeholders.

#### Acknowledgements

The FMP management and staff have continued to deliver favourable results in the face of a challenging business environment. I would like to thank them all for their invaluable commitment.

On behalf of the board, I would also want to thank our key stakeholders and my fellow board members for their immense contribution.

### Notes to the Consolidated Abridged Financial Statements for the year ended 31 December 2022

#### 1 Corporate information

First Mutual Properties Limited is a public company incorporated and domiciled in Zimbabwe and its shares are publicly traded on the Zimbabwe Stock Exchange. The principal activities of the Group are property investment, development and management. The consolidated financial statements of the Group for the twelve months ended 31 December 2022 were authorised for issue in accordance with a resolution of the directors at a meeting held on 24 February 2023.

#### 2 Statement for compliance

The Group's financial statements have been prepared in accordance with International Financial Reporting Standard ("IFRS") as issued by the International Accounting Standards Board ("the IASB"), International Financial Reporting Interpretations Committee ("IFRIC") as issued by the IFRS Interpretations Committee ("IFRIC") and in a manner required by the Zimbabwe Companies and Other Business Entities Act (Chapter 24:31). The financial statements are based on statutory records that are maintained under the historical cost convention except for investment properties and equity securities at fair value through profit or loss that have been measured on a fair value basis.

#### Auditor's statement

The consolidated inflation adjusted financial statements from which this abridged version has been extracted, have been audited by Ernst & Young Chartered Accountants (Zimbabwe). A qualified opinion has been issued as a result of the impact of the prior period non-compliance with the requirements of International Accounting Standard 8 "Accounting Policies, Changes in Accounting Estimates and Errors", and the consequential impact of applying International Accounting standard 29 "Financial Reporting in Hyperinflationary Economies" on incorrect base numbers. The audit report also includes a key audit matter with regards to the valuation of investment properties in the current year. The auditor's report is available for inspection at the Group's registered office.

The Audit Partner for this engagement was Fungai Kuipa (PAAB Practising certificate number 335).

### Notes to the Consolidated Abridged Financial Statements for the year ended 31 December 2022

#### Inflation Adjustments

For the purpose of fair presentation in accordance with International Accounting Standard 29 "Financial Reporting in Hyper Inflationary Economies" the financial statements have been restated for changes in the general purchasing power of the ZWL and appropriate adjustments have been made. The restatement has been calculated by means of conversion factors derived from the month on month Consumer Price Index (CPI) prepared by the Zimbabwe Statistical Agency. All items in the statement of comprehensive income are restated by applying the relevant monthly conversion factors. The conversion factors used are as follows:

Date	СРІ	Conversion factor
31-Dec-22	13 672,91	1,00
31-Dec-21	3 977,50	3,44
31-Dec-20	2 474,51	5,53

#### 3 Accounting policies

The principal accounting policies adopted in the presentation of these financial statements are consistent with those of the previous financial year. However the Group changed the classification of staff related expenses and other offices expenses which are directly associated with the management of properties from administration expenses to property expenses in line with regional listed property companies. The reclassification resulted in increase in property expenses and decrease in administration expenses with no effect on profit for the period.

#### 4 Reporting period and currency ("ZWL")

The reporting period is 1 January 2022 to 31 December 2022. The financial statements are presented in Zimbabwean dollars (ZWL) being the functional and reporting currency of the primary economic environment in which the Group operates. There was no change in the functional currency and reporting currency of the Group from the previous financial period. The Group used the RBZ auction rate to translate all transactions done in foreign currency to Zimbabwean dollars (ZWL).

#### 5 Going concern assumption

The Directors have assessed the ability of the Group and Company to continue operating as going concerns and believe that the preparation of these abridged financial statements on a going concern basis is appropriate. Based on the Unaudited Historical financial performance for the year of 2022. The business also continues to implement futuristic plans in response to the market trends to ensure sustainable earnings, with investments planned for Arundel Office Park expansion and participation in FMHL Group projects, retail land acquisitions and tenant driven expansion initiatives. In addition, borrowing capabilities continue to be pursued due to the positive cash flow generation. These all provide evidence of business continuity and the thrust to implement strategic plans and targets. It is to this effect that First Mutual Properties Limited financial statements will continue to be prepared under the going concern basis.

#### 6 Fair value measurement

The Group's fair values of its investment properties are based on valuations performed by Knight Frank Zimbabwe an accredited independent valuer. Knight Frank is a specialist in valuing these types of investment properties and has recent experience in the location and category of the investment properties being valued. The valuations are based upon assumptions on future rental income, anticipated maintenance costs, future development costs and the appropriate discount rate. Where the market information is available, the valuers make use of market information from transactions of similar properties . Significant judgements were applied as at 31 December 2022 as a result of the uncertainties resulting from the hyperinflationary economic environment, currency shifts, excessive market volatility and lack of recent transactions conducted in ZWL.

#### 5.2 Investment Property held for sale

During the year ended 31 December 2022, the directors of First Mutual Properties Limited decided to dispose of a residential parcel of land, known as 472 Goodhope Township of Lot 4 of Goodhope, Harare as part of the Group's ongoing capital recycling strategy. Conditions for the classification as held for sale (as stipulated in IFRS 5- Non-current assets held for sale and discontinued operations) were met as at 31 December 2022. The asset was reclassified to current assets from investment property as disclosed below. The sale of the residential parcel of land is expected to be completed within a year from the reporting date.

#### 6.3 Fair value hierarchy

#### Valuation techniques used to derive level 3 fair values

The table below presents the following for each class of the investment property:

- the fair value measurements at the end of the reporting period;
- the level of the fair value hierarchy (in this case level 3) within which the fair value measurements are categorised in their entirety;
- a description of the valuation techniques applied;

  the inputs used in the fair value measurement, incl.
- the inputs used in the fair value measurement, including the ranges of rent charged to different units within the same building; and
- level 3 fair value measurements, quantitative information about the significant observable inputs used in the fair value measurement.

<sup>\*</sup>Credit loss allowance at different loss rates
\*\*Credit loss allowance at (2022: 3.43%) (2021: 4.52%)

At 31 December 2022, the Group revised its Expected Credit Loss (ECL) provisioning matrix in line with changes in market and economic conditions affecting the tenants ability to settle their arrears. The revision resulted in a slight change of ECL rates being applied in the year ended 2022 as compared to the prior year. The revision took into account historical data for the past two years. Forward looking information was incorporated by adjusting historical loss rates using estimated GDP movements in the Zimbabwean economy.

**Audited Abridged Financial Results** For the year ended 31 December 2022

Go Beyond

#### **Notes to the Consolidated Abridged Financial Statements**

for the year ended 31 December 2022

#### 16.1 \*Reclassification effect on property expenses and administration

During the year the business reviewed its long term KPI's targets in line with the agency and asset management model, to ensure the cost centre is optimised, with the business targeting to manage more assets and have a greater number of square meters under management to drive the optimising of KPI's. The business also reviewed KPI's in line with regional best practice reporting for real estate investment companies, with the benchmark taken from leading listed property companies in South Africa. To this end, in order to achieve this, the current reporting format and allocation of expenses, namely staff related costs and property management related expenses, was reclassified from administration expenses to property expenses.
